

The SALONPAS GEL-PATCH — even more powerful pain-relieving action with stretchability.

The strong cooling effect provides an even better pain-relieving response.

The SALONPAS GEL-PATCH cools the affected area, providing welcome relief. The medication penetrates the skin, working swiftly to cool and ease the inflamed area.

Stretchable, it can be put on any part of the body.

The SALONPAS GEL-PATCH stretches easily to fit anyone, anywhere. No matter where it hurts, the patch will mold itself to the body as needed.

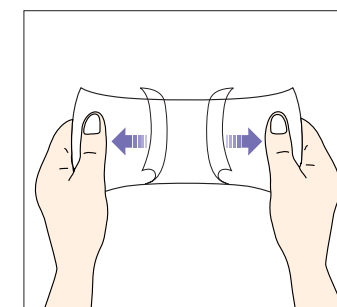

Easy to remove. No more pain.

The SALONPAS GEL-PATCH is easy to remove. Unlike other adhesives, the patch does not pull at skin or hair when it is removed. No more wincing, no more pain. The patch stays in place when needed, and comes off painlessly when removed.

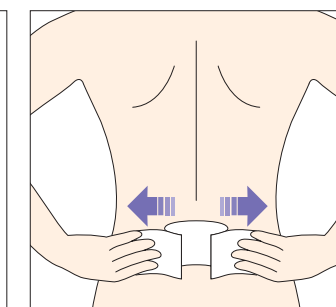

Simple to put on — Anywhere.

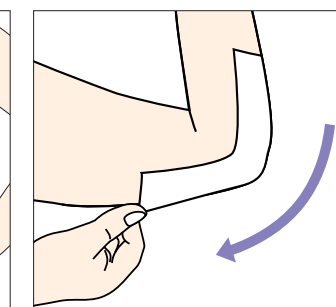

Pull out at both ends.

Stick the center on first, then pull one side at a time and stick on the sides.

Bend your arm first, then stretch over joint as shown.

Bend your knee first, then apply as shown.
